

LUNAROSSA
with 3D V.S. underlining
OR
with antistress underlining

This mattress is suitable for those who are allergic to dust mites, feel very hot in bed but do not feel particularly cold, have excessive sweating (3D V.S. underlining is particularly suitable), are overweight (exceed their ideal weight by 5/10%), sleep on their side or in other positions (particularly suitable), do not wish to use an adjustable base, suffer from neck and/or back pain, have peripheral blood circulation issues, are subject to electromagnetic pollution (only anti-stress underlining version), want a mattress with differing comfort levels on either side (bi-comfort), have a particular need to remove the mattress cover.

Pillow Top Plus - REMovable®
(patent n. 102016000021487).
Exceptional comfort and thermo-regulating properties. Perfect air permeability. Removable cover.

Spring's Time® pocketed springs
Exclusive construction method that improves significantly the ergonomics, noiselessness, and durability of the mattress.

Bodyform® HD
is an innovative viscoelastic foam, both heat-sensitive and self-shaping.

With **3D V.S. fabric underlining**, ventilation improves thanks to the peculiar air gap.

With the **carbon anti-stress** underlining, electromagnetic waves and static are discharged.

The perimetral insert and bellows of the **Pillow Top Plus REMovable®** in 3D V.S. fabric facilitate ventilation inside the mattress.

The **bi-comfort** feature allows you to choose between two comfort levels.

STRUCTURE

Pocketed springs Spring's time® system
Seven comfort zones. Innerspring structure made of steel barrel-shaped coils individually encased in special fabric and assembled with no vertical contact. Over 250 coils per square meter (400/800 structure). Combined with **Bodyform® HD**, it provides the mattress with both medium-soft and medium comfort levels (bi-comfort) on the standard version, or alternatively medium-firm and firm comfort levels (bi-comfort) upon request.

Isotex wear-resistant protections
Needle-punched, heat-set and soft (in the firmer version).

Adapto system
High-density, anti-deformation and supporting material.

Elastocell insulating layer
Convuluted surface texture with 1300 raised contact points (on twin size) with differentiated pattern zones. High-density, resilient and non-deformable.

Bodyform® HD
Bodyform® HD component, convuluted surface with seven comfort zones and micro-pinholes.

UNDERLINING

3D V.S. underlining version

3D Ventilation System
fabric underlining with non-compressible air gap.

Anti-stress underlining version

Anti-stress fabric
Anti-stress underlining made with carbon yarns, arranged in a lattice pattern on the fabric.

COVER

SilverActive® with silver ion
High-tech padding combining the performance of **Trevira® Bioactive**, a bioactive hygienic fibre with a permanent antimicrobial effect, with the natural features of the organic fibre found in **farmacott® - anti-dust mite cotton** and the eco-friendly **Mais Fibra®** made from natural sources.

3D V.S. fabric 3D Ventilation System
internal layer, with non-compressible air gap.

Removable cover
Four-sided sturdy zipper.

Cotton blend fabric Amicor™
cover in double elastic fabric with permanent anti-dust mite, anti-mycotic and anti-bacterial fibre.

Dry-clean
The cover can be dry cleaned.

3D V.S. permeable band
Double 3D Ventilation System air permeable band on the mattress perimeter.

Washable at 95° C
The cover can be washed in water at 95° C.
