

PASSIONE

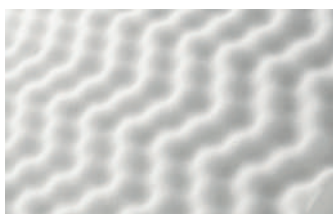

Ergonomic seasonal mattress

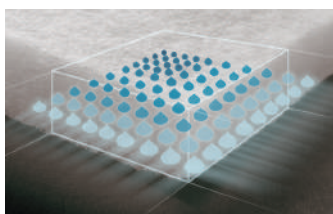

This mattress is suitable for those who do not feel particularly hot or cold in bed, have mild sweating, have an ideal weight, **sleep on their side or in other positions**, do not wish to use an adjustable base, do not suffer from neck and/or back pain, do not have peripheral blood circulation issues, are not subject to electromagnetic pollution,

Spring's Time® pocketed springs
Exclusive construction method that improves significantly the ergonomics, noiselessness, and durability of the mattress.

Massaging Elastocell is a foam providing a pleasant relaxing sensation.

The **anti-condensate fibres** allow a fast dispersion of the body's perspiration.

STRUCTURE

Pocketed springs Spring's time® system
Seven comfort zones. Innerspring structure made of steel barrel-shaped coils, individually encased in special fabric and assembled with no vertical contact. Over 250 coils per square meter (400/800 structure). Medium comfort level in the standard version, or firm upon request.

Adapto system
High-density, anti-deformation and supporting material.

Elastocell insulating layer
Convolute surface texture with 1300 raised contact points (on twin size) with differentiated pattern zones. High-density, resilient and non-deformable.

Isotex wear-resistant protections
Needle-punched, heat-set and soft (in the firmer version).

NON-REMOVABLE COVER

Wool blend
Winter side padding in wool and heat-insulating fibres.

Fabric
Cover in double elastic fabric with tone-on-tone colours.

Cotton blend
Summer side padding in cotton and heat-insulating fibres.

3D V.S. permeable band 3D Ventilation System
band on the mattress perimeter.

Anti-condensate fibres
Heat-bonded fibres form a resilient and air permeable weave.
