Ergonomic seasonal mattress

This mattress is suitable for those who feel quite hot and/or cold in bed, have moderate sweating, are overweight (exceed their ideal weight by 5/10%), **sleep on their side or in other positions**, do not wish to use an adjustable base, suffer from neck and/or back pain, have peripheral blood circulation issues, are not subject to electromagnetic pollution,

**Spring's Time®
pocketed springs**
Exclusive construction method that improves significantly the ergonomics, noiselessness, and durability of the mattress.

Aquapure® Soya provides correct support for the entire body.

ACTION®
Technical fibre mix created for the warm periods of the year.

The **3D V.S. fabric** perimetral insert facilitates ventilation inside the mattress.

STRUCTURE

**Pocketed springs
Spring's time® system**
Seven comfort zones. Innerspring structure made of steel barrel-shaped coils individually encased in special fabric and assembled with no vertical contact. Over 250 coils per square meter (400/800 structure). Combined with **Aquapure® Soya**, with equal firmness on both sides, it provides the mattress with a medium comfort level on the standard version, or alternatively a firm comfort level upon request.

Adapto system
High-density, anti-deformation and supporting material.

Aquapure® Soya
Aquapure® Soya components, convoluted surface with seven comfort zones and equal firmness on both sides.

Isotex wear-resistant protections
Needle-punched, heat-set and soft (in the firmer version).
