

TRENDY

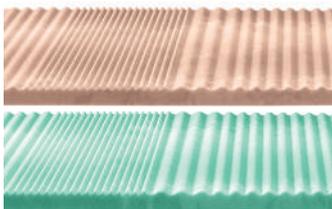

Ergonomic hypo-allergenic mattress

This mattress is suitable for those who **are allergic to dust mites**, feel very hot in bed but do not feel particularly cold, have excessive sweating, are overweight (exceed their ideal weight by 5/10%), **sleep on their side or in other positions**, do not wish to use an adjustable base, suffer from neck and/or back pain, have peripheral blood circulation issues, are not subject to electromagnetic pollution, want a mattress with differing comfort levels on either side (bi-comfort).

Spring's Time® pocketed springs
Exclusive construction method that improves significantly the ergonomics, noiselessness, and durability of the mattress.

Different **Aquapure® Soya** element firmness on either side of the mattress results in two comfort levels.

The three-dimensional layer of the **3DVS** cover panels greatly improves ventilation thanks to the air gap.

The **3DVS fabric** perimetral insert facilitates ventilation inside the mattress.

The **bi-comfort** feature allows you to choose between two comfort levels.

AVAILABLE FIRMNESS LEVELS		
STANDARD	Medium-soft side (MeMo) Medium side (Me)	Medium-firm side (MeRi) Firm side (Ri)
	UPON REQUEST	

STRUCTURE

Pocketed springs Spring's time® system
Seven comfort zones. Innerspring structure made of steel barrel-shaped coils individually encased in special fabric and assembled with no vertical contact. Over 250 coils per square meter (400/800 structure). Combined with **Aquapure® Soya**, with differing firmness on either side, it provides the mattress with both medium-soft and medium comfort levels (bi-comfort) on the standard version, or alternatively medium-firm and firm comfort levels (bi-comfort), upon request.

Adapto system
High-density, anti-deformation and supporting material.

Aquapure® Soya
Aquapure® Soya components, convoluted surface with seven comfort zones and differing firmness on either side.

Isotex wear-resistant protections
Needle-punched, heat-set and soft (in the firmer version).

NON-REMOVABLE COVER

Hypo-allergenic fibres
Hypo-allergenic fibre padding on both sides, resistant to moulds, moths, microorganisms.

3D V.S. fabric
3D Ventilation System panels cover, with non-compressible air gap.

Fabric
Patterned border cover in double elastic fabric.

3D V.S. permeable band
3D Ventilation System air permeable band on the mattress perimeter.
